MOST IMPORTANT FROM PERU.

(Telegram to Nacion.)

Santiago de Chile,
Oct. 28th, 6 p.m.

Most important news from Peru by cable:—

Revolution on 7th in Arequipa, Pierola's Head Quarters: it was got up by the authorities and the army, and seconded by the departments of Puno and Moquegua, the result being the overthrow of Pierola.

The Prefect of Arequipa, Dr Solar, who had hitherto bowed to Pierola's authority, had a hand in the change of Government.

The principal cause of the revolution was the notes addressed by Mr Hurlbut, American Minister at Lima, to Rear Admiral Lynch, the contents of which led it to be understood that the United States would interfere to prevent the dismemberment of Peru, if all Peruvians would unite under Garcia Calderon.

Callao telegrams say that Colonel Caceres, leader of the Peruvian guerrillas near Lima, has shot General Buendia, who was Commander-in-Chief of the Peruvian army in Tarapaca, Caseres's men all disbanded on account of this deed.

Ex-President Pinto is named Chilian Minister at Buenos Ayres and will leave soon. Sr Echeverria, Consul-General in Buenos Ayres, will be his Secretary, and a son of the new Minister will go with him as attaché.

Exchange 33½.

THE NEW PARAGUAYAN BANK.

The establishment of a joint-stock bank in Paraguay is the next move to resuscitate that country. The statutes of the new bank are printed in pamphlet form, and the shares are subscribed for by some of the principal merchants of this city. Messrs. Ford and Carreras are the concessionaires and will have exclusive privileges for 25 years, free from every tax or impost and with right to emit paper money to the extent of three times the amount of specie it holds on hand. The capital of the bank is fixed at £100,000 stg, with the right to commence business when £20,000 is subscribed. The concessionaires to deposit £1000 as guarantee in the Paraguayan Treasury, which deposit will be returned on the opening of the bank.

It is needless to go through all the statutes and bye-laws of this new concern. They are framed and drawn up on well-established precedents and, did the success of such an institution depend upon the framework of its statutes, then the shareholders need have no apprehension as to its future.

A joint-stock bank, started in so fertile a country as Paraguay and where the normal rate of interest is 2½ per cent per month, should, under proper management, prove a species of California mine to its shareholders, and the men who figure as the subscribers of the bank capital are prominent members of our commercial community and know all about Paraguay, its past, present, and future.

The new bank will no doubt tend greatly to develope Paraguayan industries, and will greatly facilitate our relations with that market. Paraguayan products are rich, valuable and numerous; but it does seem to us that the element of stil higher power in the resuscitation of this sister republic is immigration. Hands more than paper money are needed in Paraguay, and no matter how powerful a well-managed bank may be in aiding the trade of a country, so long as the population of that country numbers twenty women to one man all the capital of the Bank of England would fail to increase its resources.

Paraguay wants men, even more than capital, and we learn with much pleasure that a new colony of German farmers, recently started in the beautiful valley of Pirayu, is doing remarkably well. The history of that colony is all-important.

Application was made from Germany to the Argentine, Oriental and Paraguayan Governments for the best terms these countries offered to immigrants. Paraguay in her generosity outstripped her colleagues and hence secured the German colony. Let her public men but continue in this course and the new bank under consideration will prove a blessing to Paraguay and a fortune to its enterprising shareholders.

THE CHILIAN TREATY.

We publish with unfeigned pleasure the following documents, as we devoutly hope that they may prove the last chapter of the profuse Chilian literature with which the public has been dosed of late. It is also pleasant to feel that we can now publish them without being imprisoned for a week by Congress and condemned to live on truffled turkey, Limerick ham, Bagley's biscuits and the best of beer and champagne, high fare which it is most dangerous for hard-working editors to indulge in.

Buenos Aires, Oct. 27th 1881.

The undersigned. Secretary of State of Foreign Affairs, complying with instructions from the President of the Republic, has the honour to inform the Secretary of State of the United States Government, of the friendly cooperation lent by General Thomas O. Osborn, representative of the Union, in arranging the question of Boundaries between Chile and this republic.

The American Ministers Resident in both countries initiated the negotiations and contributed to keep them within the moderate and prudent bounds necessary to settle questions which time had embittered.

The Argentine Government, which has witnessed the perseverance with which General Osborn, worthily interpreting the friendly feeling of his Government, helped to solve the difficulties which threatened to break the friendship between these republics, and to reestablish their traditional relations, has made known to him, through the undersigned, its high sense of the noble part he has played.

The undersigned is also commissioned by the President to inform H.E. Mr Blaine of same, feeling certain that the most Excellent Government of the United States will be pleased to learn that General Osborn, faithfully carrying out the American policy, has contributed to an arrangement which secures harmony and peace between two nations.

The undersigned offers H.E. the Secretary of State the assurance of his highest consideration.

Bernardo de Irigoyen

H.E. the Honble James G Blaine, U. S. Secretary of State for Foreign Affairs.

Buenos Aires, October 27.

Monsieur le Ministre,—

I have the honour to acknowledge the receipt of Your Excellency's note of the 25th inst., informing me that the exchange of the ratifications of the Boundary Treaty between the Argentine and Chilian Republics, of July 23rd last, had taken place at Santiago on the 22nd inst., and inclosing a copy of the Treaty in question, which it will be my pleasing duty to forward to Her Majesty's Principal Secretary of State for Foreign Affairs.

In begging the President and Your Excellency to accept my sincere congratulations on the peaceful and honourable settlement of a question which contained so many dangerous elements of strife between two kindred republics, I may safely assure Your Excellency that Her Majesty's Government will learn with much satisfaction that the future peaceful relations between the Argentine and Chilian Republics have been placed upon a firm and durable basis, opening a new era of prosperity and progress to this portion of South America.

I avail myself of this occasion to renew to Your Excellency the assurance of my highest consideration.

(From Our Own Correspondent.)

October 28.

In one of my recent letters I mentioned the great milling interest that has arrisen in this province. Some thirty odd large flour mills already exist, capable of grinding all the wheat we produce. These mills, with one or two exceptions, are driven by steam. I would now speak of one of these exceptions.

It sounds strange to speak of water-power in our flat country, whose rivers meander through the pampa at a sluggish pace. But, strange as it may appear, we really do possess a very valuable stock of water-power, as is evinced by the splendid mill belonging to Messrs. Hill and Co., on the Carcarañá. This river possesses a permanent stream of water, sometimes more, sometimes less, but never either dry or overflowing its banks till far up in the province of Cordoba. Four American gentlemen saw at once that if a perfect dam could be made across this river, in any part of the province of Santa Fe, a permanent water-power could be secured. They commenced operations at the village of Carcarañá, within a few hundred yards of the Central Argentine Railway. The dam is of wood on the 'tosca' bed of the river, and has been a complete success. The heaviest floods appear only to have had the effect of strengthening it the more. The water-power thus secured is said to be five hundred horse-power during ten months of the year, and three hundred for the remaining two. Now, if we calculate the mercantile value of permanent water-power at two hundred dollars gold, for each horse power, which any practical manufacturer will say is a very modest figure, we find that Messrs. Hill and Co. possess a property in water-power alone worth about a hundred thousand dollars; and it must be remembered that this does not exhaust the water-power of the Carcarañá. The same operation can be made for many leagues, placing the dams at such a distance apart as not to interfere with each other, affecting levels, or causing back-water. The mill of Messrs. Hill and Co. is a sight worth seeing. In it is the most perfect machinery invented up to the present day, and it is the boast of the owners that the flour they turn out is equal to the best Richmond brands, that are the delight of the Brazilians. Attached to the mill is a grain elevator of a capacity of sixty thousand bushels. The mill at present has only five run of stones, but can grind some two hundred fanegas, or twelve hundred bushels, per twenty-four hours. All the motive-power, alike for the mill as the elevator, is borrowed from the waters of the Carcarañá, to be returned to it again. The whole of the water-power used is not more than seventy horse-power, leaving an enormous surplus, either for more runs of stones or a hamlet of manufacturers. There is water-power enough at this single point to employ, on different manufactures, five hundred people.

Steam-power is so expensive that it is the ruin of many nascent industries. Had your unfortunate cloth factory been worked by the motive-power of the water-power of the Carcarañá, it might have been at this very time turning out blankets, ponchos, and, perhaps, armyclothing. Not only is the economy great in motive-power but living is cheaper here. Water-power is the only quotient in the possible success of a cloth manufactory. But it is not for cloth-making alone that water-power is essentially needed as an economical motive-powe. Paper mills, chair and furniture shops, oil mills, saw mills, wool baling and a score of other trades might cluster on the picturesque but valuable banks of the Carcarañá. The Messrs Hill and Co. actually possess on both sides of the river an amount of two or three hundred horse-power lying idle, or rather tumbling over the dam, giving a shower-bath gratis to the shoals of fish that are stopped by the barrier. Now let any one tot up the cost of a ten-horse power engine, and, what is infinitely more serious, the permanent cost of the fuel necessary to produce the power, and he will be the more able to appreciate the value of these two or three hundred horse-power, that ask for no coke, coal, wood, engineer, stoker or engine.

What are our capitalists about that they do not make use of the motive power Providence gives, instead of going to Messrs Ransome and Sims? They cannot plead ignorance. American enterprise and energy have discovered the mine, why will not people work it? The time, however, is pretty sure to come, and come soon, when the water-power of the river Carcarañá will be in active requisition.

The German Choral Society make its debut in public last week, before a crowded audience of the select of our society. Considering the recent formation of this society, the members displayed a most commendable proficiency. Much is due to the 'labour of love' of our friend, Mr. Escalante, whose talents as a musician, professor and leader are so well known here, in Buenos Aires and in Chile as to dispense with any encomiums from my pen. It was something new to our dilletante to hear the glorious songs of the Vaterland sung by fifteen or twenty voices, in parts, without the accompaniment of any instrument. In this manner were rendered the 'Waldandacht' of Abt, 'Mein Heimaththal' of Lieber, 'Das ein same Roeslein' of Hermes, and the Grand song 'Rheinwein Lied' of Zoelner. The following were very agreeably rendered by Messrs Kleiber Gietz, Welker, and Degmeier respectively 'Schlafe wohl du sueser Engel', Ich kenn ein Auge,' 'Befiehl der Blume zu vergessen.' The gem of the evening, however, was the 'Stella confidente,' sung by Mr Kleiber Gietz, accompanied by piano, violin and violoncello, the latter played with pleasing effect and skill by one of the members of the society, Mr. Lange. Mr. Escalante used his magic wand admirably, and kept his regiment of voices together.

To end with a laughable incident. One of our papers, describing the concert, says that Mr. fuer Maennercher acquitted himself very well in a beautiful song! The programme was printed in German.

EDITOR'S TABLE.

The Royal Mail Steamer Elbe, Captain Brander, sailed yesterday. The passengers had a most glorious day for their sail to the Outer Roads, and we hope equally fine weather may attend them till they get within sight of old England, where they are highly unlikely to meet with it at the end of November. 'None of your darned blue skies there' as the old 'salt' said.

Let no one think of visiting the ironclad Brown to-day. Official notice has been given that none, but the President's party will be allowed on board to-day, as the crew and ship have to be inspected by His Exelence.

It was rumoured yesterday that poor Mr Nicol's body has been found in the Sanborombon and interred yesterday.

Father Jordan SJ. will preach to-day at the Cathedral after the Mass at 1 o'clock.

We are informed that Wood's Twine Binders will work on Tuesday next in Mr. Carlos Yanta's chacra, at San Martin, Campana Railway. Those interested in farming should not miss this opportunity of seeing these superb agricultural machines at work.

The foreign news yesterday was important, especially from Peru, see *Nacion* telegram in another column. If the news had come ten days ago, 'quien sabe' if the Treaty would have been signed over the hills and far away.' From the Old World we hear that England and France have commenced forcible intervention in the land of Pyramids, with a couple of ironclads each; and although it may only be a repetition of the famous European Concert, in which the united fleets 'played' such a ridiculous part, it may, on the other hand turn out to be the prelude to the reopening of the Eastern Question and end in a very different tune. We remark with pleasure that King Alfonso has chosen an Irishman—General Prendergast—as Governor of 'the Pearl of the Antilles.' We take for granted that no one who knows where Wexford is will deny that the new Governor of Cuba is an Irishman.

The Port Captain's idea of getting up a kind of Communist Pilots' Association in which all the Pilots of the Plate would work together and have equal shares in the profits meets, as it should, with decided opposition from all the steamer and shipping agents, who have signed a petition to the Centro Comercial against such a measure, as it would lead to endless evils, international questions, and goodness knows what more. Amongst pilots, as amongst other people, 'some are and must be greater (more competent) than the rest,' and if one of 'the rest' managed to lose a foreign steamer in the river, there would most certainly be a diplomatic bobbery, owing to the incompetent pilot being forced on the steamer under the new regulation proposed. Captains and Companies must be allowed to choose their own pilots as hitherto.

A tilbury horse ran away yesterday in Calle Reconquista, and the driver was pitched out on his head. Strange to say, it was the other end of him that was hurt, one of his feet being badly fractured. He was carried into Mr Seedorff's 'botica,' and Dr Fleury of Montevideo, who happened to be passing by at the time, showed every attention to the injured man, as also did Mr Seedorff.

Cards for the Lord Mayor's breakfast on Tuesday, after the ceremonies at the Recoleta, were sent round yesterday.

We regret to say that Mr Kemmis, of Las Rosas, has lost a fine colt foal by Blair Adam, out of Sub Rosa. This is a very severe loss to our enterprizing countryman; he has also lost Norma, a 2 year old filly that he took back from here through an injury she received at Cañada de Gomez.

On Wednesday next, the 2nd of Nov., the second meeting of the Argentine Horticultural Society will take place at 101 Calle Reconquista. There will be a show of plants and flowers. All gardeners and amateurs are invited to compete. Should the weather be fine, there will be a good show of Roses, Ferns, Marantas etc. Plants and Flowers will be received on the day named from 12 noon to 7.30 p.m., and the rooms will be open to the public from 8 to 10 p.m. Admittance is obtained on the invitation of a member of the Society.

Another Brander busines has turned up—in the *Album de las Niñas* of last week, a 'joven literato' named Gomez having inserted a well known translation of Byron's 'To Jenny' as his own production.

The *Pampero* of Bragado says that the wheat crops in that partido are in splendid condition. The rumours as to the serious injury done by the rain must, therefore, be inexacta.'

Mr Maurice Grau's lyric company left on Friday afternoon for N. York and a larger number of persons than we ever saw before on such occasions was assembled to press for the last time the hand of artistes who had made themselves liked by every one. Messrs Mauge and Mauras were both enveloped in a circle of acquaintances and both were visibly affected when the moment came to bid farewell to their friends. Mlle. Paola Marie and Mr Tauffenberger had gone early in the morning on board the Stella. Mlle Leroux walked down the mole all alone with the air of a princess but rather a clouded brow. A large number of pets—parrots, monkeys, dogs, cats etc accompanied the members of the company. Some admirers of Mr Mauge, thinking the presents made to him on the evening of his benefit (and which consisted of a splendid gold chronometer, 2 gold chains, and a silver cigarette case, and the one he got on Thursday evening, a fine silver salver) not sufficient, made him another, a splendid gold ring. Mme Mauge received a large bouquet. We do not say good bye to the members of this excellent company, but 'au revoir' as they intend to come back here in about 15 months. In the meantime our best wishes to every one of them, a happy passage and good luck in the United States.—*De Montheolo.*

Mrs Eduarda Mansilla de Garcia has issued a printed circular thanking the actors of the Alegria Theatre for the able manner in which they interpreted her new drama, the Marquesa de Altamira, the other night. Mrs Garcia generously declares that the critics have been very hard on the actors while very soft on herself.

A sensation has been caused in Bristol by the discovery that a cargo of 300 tons of human bones is now being discharged to the order of a local firm of manure manufacturers. The bones were shipped at Rodo, and are remains principally of the noble defenders of Plevna. The hair still adheres to some of the skulls, and complete limbs are amongst the horrible contents of the cargo.

Nothing new from old Montevideo. The Spaniards there are very much excited over the sudden disappearance of a countryman of theirs named Sanchez, in Tacuarembo. He was last seen with some policemen at his heels for some political shortcomings, and as, over the water "disappearing" is equivalent now and then to being cut down, there is a suspicion of foul play in the present case.

Some people have suggested that the signing of the Chilian Treaty should be celebrated by giving the children of the public schools a week's holidays. We fancy this brilliant suggestion must have come from some of the teachers—one word for the children and two for themselves.

The Argentine Consul at Barcelona has be dismissed, for sending his private, letters in official envelopes, thereby 'doing' the Postal League out of a certain amount of cash.

Mr. Wagner has been named Greek Consul in Buenos Aires and has obtained his exequator from the National Government.

A Carolina Metz affair is reported from Santa Fe where two brutal ruffians stabbed a poor girl named Teresa in the breast because she would not let them enter her house. They then ran away, and, meeting an Italian on the way, left him dead with a furious stab. The police turned out in all directions and soon captured the criminals. The poor girl crawled to a neighbouring house with the knife still stuck in her breast, and at once expired.

The Bazaar at Almagro will be open this evening.

Amongst the cargo of the Pacific steamer Magellan on her last voyage home from the West Coast were 360 sacks of empty cartridges picked up on the recent battle fields in Peru. They will be filled again in Europe and probably again emptied as the 'last argument' of some King or republic.

The *Patria* of Dolores announces that a young shark a yard and three quarters long has been caught in the Laguna Larga there. This would be funny if true, but it requires a deal of confirmation. Nevertheless, the youngster may have come up the river, and there may be some other children of his kind still in the Laguna, which should in future be eschewed as a nice place for bathing.

The first Bill to be taken up by the Provincial Legislature in the extraordinary session will be that about the new Capital. If Campana be selected, the weeping and gnashing of teeth in Rosario will be so tremendous that there will be an unprecedented demand for pocket-handkerchiefs and dentists. A railway from Campana to Rosario would to the mischief.

The San Nicolas Municipality has asked the Provincial Government for the tight little loan of a round million of paper dollars, but the latter says that it would very much like to know what San Nicolas can possibly want with so much money, and what it intends to do with it if it should get it?

The Board of Works and the West. Railway have obtained permission from the Municipality for their navvies to work on Sunday.

The town of Azul will shortly be raised to the rank of a city by a decree of the Provincial Government. Fiddlestick! A decree wont make it a city in anything but name, and 'what's in a name?' Azul by any other name would look as blue.

We are very glad to hear that the poet laurente, Dr Andrade, is recovering from his recent illness.

The Czar Alexander has given up 17 of his palaces for free schools for the poor children of Russia. Well done.

We feel much pleasure in saluting our distinguished colleague, Dr. Gutierrez, who has just returned from Europe, much improved in health.

Patacones	25.40
Cedulas A	98⅞
National Bank Shares	122

The gold market showed fresh weakness today, and prices dropped all along the line 5 cents, closing at 25.40. The wools are now coming in so fast that it is thought it will be hard to maintain 25.40 next week, and a fresh drop in gold is looked for when the month's liquidation closes; gold opened at 25.45 cash and closed at 25.40; cash sales, 129,900 pats. For Nov. and Dec. much gold offering at 25.45, but not sold, a few lots placed at 25.40.

Cedulas very quiet; 10,400 sold cash at 98⅞, and for Monday 57,000 sold at 98⅞ and 99. As for the new Series E, not a single Cedula offered to-day spite of the ring rumours that the Bank had just issued a very large amount, but for the large amount of Cedulas thrown on the market to pay for Bank Shares Series A would be at par, if not at a premium.

National Bank Shares rule hard, stiff and quiet, although to our view to-day's price is the month's liquidating price; still many think that on Monday a large amount has to be bought back. It was quite evident to-day that the bulls have got the money to pay for the shares, since one of the leading brokers publicly announced at the ring that all shares deliverable to him on Monday he would receive to-day, and one or two others made similar announcement, yet but a mere trifle was delivered, which it is supposed proves that the sellers have not got the shares on hand. It was stated on Change to-day by no mean authority that the shares would be at 146 on the payment of the next dividend, we believe in January. It may prove so, they say that the earnings of the Bank this present half year are larger than ever. Only 150 shares sold cash at 122. For Monday only 2,350 sold, opening at 121⅞ and closing at 122½. For Nov. 30th 2,950 sold, opening at 122½ and closing at 123.

With respect to the debate in Congress it seems that the Government supports the Bank, and that there is a majority in favor of the indemnity; two more Deputies arrived to-day who support the Bank.

The clearance of the Elbe was the business of the day; the amount of exchange passed was larger than expected, and some Peruvian bills on London were sold, we hear, at 49½. Francs are very much offered, and just as soon as the bills are sold the gold is thrown on the market, nevertheless the brokers say that the mails closed with bills over.

The sales at the ring were—

For cash 129,900 25.45-40
For Oct. 31st 150,000 25.45
For Nov. 5th 10,000 25.40
For Nov. 12th 10,000 25.40
For Nov. 30th 100,000 25.40-45-40
For Dec. 31st 50,000 25.40
Sales, 449,900.

Cedulas—

For cash A 10,400 98⅞
For Oct 31st A 57,000 98⅞-99-98⅞
Sales, 67,400.

Nat. Bank Shares—

For cash 10 shares 122
For Oct. 31st 2,350 shares 121½-122-½
For Nov. 30th 2,950 shares at 122½ 123½ to 123½-123
Sales, 5,310.

Mr Schlesgor, the leading exchange broker who has returned from Europe, was warmly welcomed on Change; also Mr Trostorff and Mr Wilkens, the popular wool buyers, who were enveloped in friends when they entered the hall.

Messrs Woodgate's invaluable circular was out to-day, they report on wool as follows:—

The export of wool for the year ending to-day is 211,978 bales

against 219,424 in 1879/80
208,900 in 1878/79

We note that during the month we exported 111,966 bags of maize.

Passengers who have arrived in town this week from Rosario speak in very high terms of praise of the Campana Railway Company's steamers Tridente and Diana. The appointments on board these steamers are simply superb, and the cuisine is in the most recherche style of Delmonico's.

It is to be hoped that the National Government will alter the Custom House valuation on wool which is much above market price, and therefore calls for immediate reform. In an article such as wool subject to such frequent fluctuations, the afore should not be made for a whole year, but arranged for every month; the highest valuation that the Custom House ought to put on the wool this year should be 95⅞ m/c per ar. for the best and 80⅞ m/c for regular.

The debate in Congress yesterday on the National Bank indemnity was very animated; the inform of the 'Contaduria' and 'Procurador' is against the measure, but the Minister of Education, who, owing to Dr. Romero's illness, represented the National Government stated that the Government was of opinion that the amount claimed should be paid to the Bank, and although there is much opposition, the general opinion is that the measure will be passed.

The law ordering the whole city to be adoquinado has been promulgated; this will change the entire aspect of the town and improve all city property, the measure is the fruit of the capitalization of the city.

The Transandine Railway will now, we are happy to learn, be pushed ahead, and the advices sent home by to-day's mail are most favorable. The first section will run from Bragado to Mercedes and San Luis.

Mr Thomas Duggan who has just arrived back from a month's trip in the north camps, was enveloped in friends; he says the camps never looked better, but the shearing has been much delayed by the rain.

The Italian str. Colombo cleared yesterday with—

80 passengers
1000 bags maize
1000 bales wool

The Nord America entered to-day and landed 1,048 Italian emigrants; the sight of these fresh hands landing was one of the pleasantest, and little as we really do for emigration, still the fortunes of the country are so bright that the people are now coming out in thousands to these shores. All those landed yesterday came out unasked, and we hear of over 3,000 more on the way out.

The Händel landed to-day the splendid live stock that comes from England consigned to Mr Nash.

There was a flutter in the Cedula market this morning, owing to the news that 100,000 Cedulas of the new Series E 6 o/o would be issued on the market to-day.

The sale of 10,000 Amer. hides in Montevideo at 74 and some light hides at 73½ is reported. They are doing far more in dry hides down in the Mount than here.

It is rumoured on Change that another new bank is on the tapis, to be called the Industrial Bank, started under the auspices of the Industrial Club, by European capitalists.

The sale of 1500 head of cattle from Cordoba deliverable in Lincoln at 255 m/c p. head al corte is reported.

They say that the well known Whitfield quinta has been purchased by General Roca for two millions m/c for a town residence; we give the rumour as current on the Bolsa.

On Monday the Nat. Government agrimensores leave to survey the lands South of the Rio Negro; a really great enterprise; they will measure the lands in the valley of the Limay and up to Nahuel Huapi, and we hear on good authority that this summer General Villegas will cross the Andes into Chile to confer with the Chilian General in command there General Saavedra, so as to adopt the best measures for both Governments and both countries to drive off the Indians.

Capt Spur, commander of the Villarino, took leave to-day, he sails to-morrow for Patagones takes a full cargo, and as usual a crowd of passengers; the Villarino's mails are now looked to as important.

The 2 leagues of land in Santa Fe, 15 leagues from the city, valued at 66,000 m/c were knocked down at auction yesterday for 102,000 which shows how the Santa Fe lands are advancing.

The following interesting letter referring to the wheat crop, &c., in Santa Fe has been favored us:—

Rosario, Oct. 28th, 1881.

To the Editor of the *Standard*,

Dear Sir,

I have just returned from a tour through the camp, and have been enabled to form a correct idea of the damages caused to the wheat crop by the late continuous rains. I can assure you that it is a very pitiful sight to look at the wheat crop now in ear, and as a proof of it I send you some samples. You will observe that smut has destroyed the ears, the little it leaves has no sap in it. Too much moisture both in the soil and in the air prevented the formation of a healthy grain.

Though it is evident that a great part of the crop is destroyed, it should not be forgotten that many agriculturists sowed very late, and hopes are entertained of saving this part of the crop, which is as yet not in a very advanced state. Should we now enjoy a few weeks of fine weather, I think we shall not have to import wheat during the coming year.

Shearing has commenced in some establishments in this Province and also in the North of the Province of B. Aires, and the losses sustained in shorn sheep are very considerable, caused by the very cold storm on last Sunday and the following cold night. On some estancias the losses are as much as 50 o/o. Shearing will be postponed until late this year, as estancieros are much afraid of a repetition of this late disaster, and as wool is at a low price they will be doubly careful not to expose their sheep to fresh dangers. The wool has much 'corral' dirt in it, and burr will also stick to it very shortly.

In the town there is an abundance of money and business is risk, while in the camp on both sides of the Arroyo del Medio there is very little cash; the 'pulperos' complain very much, but with the wool season now approaching there will soon be money for all. Notwithstanding the low price of wool, the season has been a favorable one for estancieros. Wethers for consumption still fetch 60 m/c.

I remain, dear Sir,
Your obedient servant,
X. X.

El barrio Sud toma cada dia mayor incremento, las mas importantes obras nacionales se haran indudablemente en este costado, y el valor de todas estas propiedades se acrecentara rapidamente. El Campo de Marte esta ya decidido se haga en la quinta de Diehl. La Escuela de Artes y Oficios en la calle de Brasil y Matheu, el Hospital Frances, el Parque, depositos, cuarteles y muchos otros importantes edificios entre los cuales estaran dos ministerios nacionales, todas estas obras que dentro de breve tiempo adornaran la Capital haran quintuplicar el valor de la propiedad territorial, y es ya notorio el aumento de estos valores.
No hay, pues, mejor caja de ahorros ni Banco que de mejores interes, que emplear las economias en terrenos centricos que, como estos, poseen gas, tramways, aguas corrientes, empedrados, etc.

El Viernes 4 de Noviembre
A las 2 en punto de la tarde
Venderemos por el precio que esceda de la pequeña base que se le ha fijado y por orden terminante de su dueño.
Seis leguas proximamente de campo que como hemos dicho dista solo 11 leguas del pueblo de Bahia Blanca y cual esta en la Provincia de Buenos Aires, lindando con la zanja del Fuerte Argentino lo cual lo garantee mucho mas que a cualquiera otro y viniendo a quedar su ubicacion entre este Fuerte y Puan.
Al campo lo cruzan dos caudalosos arroyos el Corta Pie y el Pelicura poseyendo a mas varias lagunas, por cuya razon, y por la escelencia de sus pastos tiernos, reconocidos como los mejores de aquel parage, resolvieron el general Garcia y Coronel Donovan en la expedicion, establecer alli las grandes invernadas del ejercito.
Por esta razon hemos rogado a estos dos gefes distinguidos se sirvan darnos sus informes, los cuales publicamos a continuacion.
Muy inmediata a este campo esta la concesion Plaza Montero pero es lindero con el gran establecimiento del Sr Ernesto Tornquist, que como se sabe esta todo poblado con edificios y haciendas y totalmente alambrado.
A mas todos los linderos que mas abajo se mencionan, tienen tambien, sin escepion sus estancias pobladas y trabajando.
A este campo lo cruza el telegrafo y el camino real que va a Bahia Blanca, Guamini y Puan, pasando por su cento la galera que va a Carhue.
Para probar elocuentemente que este es el mejor campo que se ha puesto hasta hoy en venta, basta decir que el Sr Ataliva Roca lo adquirio hacen 3 años, cuando recien se abria la primera suscricion por cuya razon el num. de orded del titulo es el 12 lo que evidencia que el Sr Roca fue el primero de los que eligieron por los escelentes informes que tuvo.
Hay otra razon para garantir que ningun campo se encuentra en mejores condiciones de venta que este, y el que, como se sabe, el Gobierno Nacional piensa hacer funcionar el puerto de Bahia Blanca muy pronto y en esta virtud que muy pronto tambien funcionar dos saladeros que se construyen alli.
Este campo no tiene ningun gravamen, no adeuda nada al Gobierno.
En nuestra casa, se daran cartas ordenes para Bahia Blanca, donde estara una persona encargada de mostrar el campo.
Los titulos son de primer orden.
Los linderos y su ubicacion los siguientes.
Por su fondo al S.O. con el lote num 47 de D A Gonzalez Chaves; por el N. O con el lote 35 de L A Burgos; por el S. E. con el num 8 del mismo Gonzalez Chaves.
El lote 36 y el 36 prima [que es el que esta en venta] linda por el N. O. con la zanja de la linea de frontera, teniendo por consiguiente la ventaja de tener un frente de defensa impenetrable.
NOTA—Podemos garantir que no hay expropiacion del Ferro Carril del Sud y que el Gobierno de la Provincia se acaba de arreglar con la empresa, para concluir la linea del Azul hasta Bahia Blanca a principio del año 1884.

ESTANCIEROS!

SPENDTHRIFT GOVERNMENTS AND INDUSTRIAL DECAY.

We take from a leading N. York colleague the following important article :—

Mexico, we observe, is competing with the Argentine Republic for immigrants from southern Europe, the Government having just received a notification that a large number of Italian colonists will leave for Vera Cruz in October to engage in agricultural pursuits. Like those of their countrymen that have gone and are still going to the fertile grazing region of the remoter Argentine Republic, these people, we are told, are composed not only of industrious farmers, but skilled laborers of the best class, with habits as economical and frugal as the Chinaman himself. An infusion of this kind of population into the languid and unenterprising communities of the neighboring Republic, it seems to us, can scarcely fail to stimulate its domestic industries and open up new sources of material wealth that have heretofore been dormant because of a lack of labor of the right kind. The experiment therefore, will be watched with interest.

Aside from this, there is something depressing in the spectacle of a country like Italy thus being rapidly denuded of the bone and sinew of its population, especially at a period when it never was so much in need of them to enable it to maintain a respectable position, in a commercial not less than in a political senss, among the European family. Even already the consequences to society are precisely what might be anticipated. 'The best classes of the people are leaving home as if panic-struck,' writes a Naples correspondent of the London *Times*, 'and it looks as if, ere long, there would be nothing but the lazzaroni and the nobility left.' But, as even the nobility are growing impoverished under the incessant pressure of the remorseless tax-gatherer, the 'hastening ills' which the poet tells us are in reserve for lands 'where wealth accumulates and men decay' are not even relieved by the reflection that if the middle and upper classes are deteriorating, or abandoning the country, the aristocracy at least are holding their own. For the truth is, with the general decadence of prosperity, these latter have before them a prospect which threatens to reduce them to almost as pitiful a plight. Indeed, it is noted as a significant circumstance that counts, marquises and others of the titular nobility are even now conspicuous among the new settlers on the estancias and pampas of Buenos Ayres; and it is more than probable that the same class will have its representatives among those who are seeking new homes in Mexico not less than among those who are already domiciled in the United States.

These people, it must be observed, are not quitting a country where land is scarce, or the soil worn out, and where opportunities for commercial and industrial enterprise have to contend with the drawbacks of a super-abundant population and excessive competition, "On the contrary," says a Neapolitan journal, "work enough may be found in Italy. Look at those deserts of Sardinia, the Tavoliere of Puglia, the Agro Romano and the Tuscan Maremma! Look at the wretched peasantry of Cremona and Mantua, who wander from commune to commune with their wives and children, exhausted by want, bowed down with misery by the pallagra and fever!" The conclusion is that, so far from there being a surplus population, even more hands than are already available would be required to cultivate the immense tracts of country which are now abandoned. It is owing to this want of labor that the large towns—and Naples especially—are filled by miscreants who prey on the richer classes, and that, too, with a ferocity which might make a savage blush. According to the 'Pungolo.'—

"The use of the revolver has assumed such proportions as to demand the serious attention of the Government and of Parliament. There was a time when it was the luxury of the rich; now there is not a bare-legged man who does not make it his companion day and night. Some day or other, people will have to leave the ground floors of their houses and go to an upper story for their personal security."

If it be asked, what is it that is thus driving 130,000 Italians annually across the Atlantic from their homes, and bringing society to the verge of anarchy or chaos? the answer chiefly must be, the rapacity and extravagance of the Government. Not many years ago Italian statesmen entered on a career of economic, financial and political reform, and much was accomplished for the well-being of the country. Taxes were reduced, encouragement was given to manufacturing and agricultural industries, and the commercial marine was developed to a point which enabled them to revive the ancient prestige of Italian navigators and to secure no inconsiderable proportion of the world's carrying trade. Since the Franco-German war, however, this beneficent policy has materially changed for the worse. The Government is ambitious to figure as a factor in international diplomacy and to identify itself with the Great Powers of the Continent. This ambition naturally has led to lavish expenditures for military purposes and for the creation of one of the showiest and costliest ironclad navies in Europe. This is the spirit of imperialism which lured France to her destruction, and which will assuredly place Italy also on the road to ruin. The enormous supplies which have been wrung from the people for these purposes are drying up all the ordinary sources of national prosperity. The commercial marine is wellnigh annihilated by high taxes, and the seamen that formerly carried the Italian flag to every port in the world are either compelled to beg their bread, in the cities or join the army of emigrants to foreign lands. At this moment the Government is building two colossal ironclads, one at Venice and the other at Castellamare, the cost of which would maintain a population of 25,000 of its subjects for a whole twelve months; and at the next sitting of Parliament funds are to be asked for two others, one at Spezzia, the other at Castellamare, each 10,000 horsepowar, to be provided with the most improved modern armaments. For this colossal navy, the King of Italy, in impoverishing the country, is paying too high a price; and if we do not misinterpret the probabilities of the future, the time is not remote when he will be made to realize the folly if not the wickedness of his policy. It may enable him at great international diplomatic conjunctures to occasionally masquerade among the European family of States as an imposing naval and military power, but it is a policy, nevertheless, which has placed Italy already pretty far on the road to ruin.

THE POLITEAMA

There was a magnificent gathering at the Circus on Friday night, being gala night, and all the artists did their best to please the brilliant company, their efforts to do so proving highly successful. Miss Margarita and Jenny were much admired and were both presented with magnificent bouquets. The trapeze boys were in great form and elicited tremendous applause, especially from the ladies. The Girards as usual caused wonder and amusement. Miss Samwell's reappearence gave great satisfaction; she is a daring rider and a good looking girl into the bargain.

The house was pretty well full the boxes crammed with the élite of the city; amongst them were the families of Aristobolo del Valle, Victorica, Torcuato Alvear, Aceval, Estrada, Pellegrini, Bemberg, Heimendahl etc. All the stars of the Company appeared in their best clothes, but there were other stars the brilliancy of which outshone everything else chandeliers included, and they were in the first row of boxes nearly in the centre of the house. In fact the Circus has become a great success, and as the performance is constantly varied, there are many people who frequent the place almost every night always finding something new and something to laugh at.

To-morrow and Tuesday there will be two performances, and no doubt the morning performances will be crowded with children. The sight of their happy faces contributes in no small degree to the enhancement of the entertainment.

MESSRS. A. Eastman & Co. Bs. As.
Dear Sirs,
I have been using your "Golden Fleece Dip" for the cure of scab in sheep during the whole year and I have not seen its equal in these parts.—It is an effectual and rapid cure, it not only destroys the scab in a very short time, but soon produces a new growth of wool.—
I have delayed writing you sooner in order that I might be the better able to judge of the effects of the medicine and to compare it with the remedies used by other sheepfarmers, none of whose flocks are at all so free from scab as mine, although they have been working far more constantly than I, to keep down scab, as regards its cost, it is the most profitable of any I have ever used or know of.
You are at liberty to use this as you may see fit and remain
Dear Sirs,
Yours truly

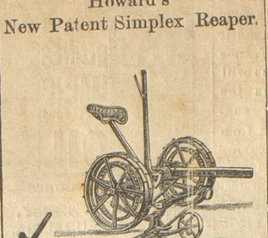
New Patent Simplex Reaper.



J. & F. HOWARD'S Simplex Reaper is in every way constructed to meet the demand for a light, but strong Reaper. It has a large travelling wheel, and having the fewest possible wearing parts, its value, especially where repairs are difficult to execute, can hardly be overstated. The experience of several harvests with large numbers of these Machines, both at home and abroad, and the distinguished place they have obtained in public trial fields, have fully demonstrated their superiority.

Dr. J. Collis Browne's Chlorodyne

(Ex Army Medical Staff)

IS THE ORIGINAL AND ONLY GENUINE.

—o—

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was deliberately untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean no other than Dr. Browne's.—*See Times*, July 12th 1864.

The Public, therefore, are cautioned against using any other than

Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.

This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when requisite. Thousands of persons testify to its marvellous good effects and wonderful cures, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

—o—

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, Jan. 5th 1880. To J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. "Dear Sir, we embrace this opportunity of congratulating you upon the wide-spread reputation this justly-esteemed medicine, Dr. COLLIS BROWNE'S CHLORODYNE, has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we shall be glad to hear of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of DR. COLLIS BROWNE'S CHLORODYNE in Diarrhœa and Dysentery, Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Choleratic Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's, from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a "deliberate breach of faith on the part of the chemist to prescriber and patient alike." We are, sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists."

Extract from the General Board of Health, London, as to its efficacy in Cholera—"So strongly are we convinced of the immense value of this remedy that we cannot too forcibly urge the necessity of adopting it in all cases."

CAUTION—None genuine without the words 'Dr J Collis Browne' on the Government Stamp. Overwhelming medical testimony accompanies each bottle.
